The LUMA collection consists of plastic bath and nursery products, which are produced in The Netherlands. Besides that, LUMA contains a trendy textile collection as well. The collection provides several key products as a complete bath and care set, changing pads, bathcapes and muslin towels. The different LUMA collections can be perfectly combined with each other. Mix and match with LUMA!

For over 30 years all of our plastic products are made and designed in The Netherlands with the best possible care. We only choose the best materials and resources. All of our textile products are lovely soft for your little one and provided with the 'Oeko-Tex' label. This label verifies that the product is made of materials which are not harmful for the health of babies and children.

DIGITAL BATH THERMOMETER

Bathing your little one is so nice, isn't it? For most babies this is an absolute relaxing moment. But it's very important that the water is nice and warm. If it's too cold it feels uncomfortable and if it's too hot it can be dangerous. This digital bath thermometer is very practical and easy to use. It activates automatically when it touches the water. As soon as it's in the water the colour changing display indicates whether the temperature is good, too warm or too cold. It's that simple, splash into the bath and with a green display your little one can take his/her bath!

- ✓ Floats in water
- ✓ Activates automatically
- ✓ Battery included
